Nutripathy is a Spiritual/Scientific application of Natural Healing Principles, in the name of God Almighty, as taught by Christ Jesus to His disciples in the Bible and oral tradition. In God's natural healing methods it is not necessary to pinpoint diseases. **Nature heals when the body is normalized** and natural foods and supplements are taken in place of toxin-producing substances. We believe it is not important to name the diseases. **IT IS MUCH MORE IMPORTANT TO START INDIVIDUALS BACK ON THE ROAD TO PROPER NUTRITION AND OTHER HEALTHFUL HABITS.** Most people who contribute to our ministry already know what their physical problems are. Knowing the name of your disease is not and will not resolve your problem. What is important is to remove the resistance in your life to God's universal principles. Your personal Nutripathic profile, based on your physical, mental and spiritual factors, will outline a regimen geared to getting your body chemistry back to a sound balance. It is recommended that you see a licensed health practitioner before deciding to implement any of these considerations. Remember that we do not treat diseases. If you have any health problems, you should see your full) licensed doctor who is legally qualified to diagnose and prescribe. Our program will not produce overnight results. Not everyone can benefit from sound nutrition, especially when certain illness make it impossible for essential nutrients to reach vital organs of the body. Good habits do pay off, in the long run, when body chemistry is able to function normally.

You are here because God sent you here. No one comes through our doors by chance.
